

New IAQG Digital Innovation Fee Effective May 15th, 2025

Dear Aerospace Clients,

As of **April 1st, 2025**, the IAQG has launched **OASIS Insights™**, a new reporting tool designed to provide valuable context and benchmarking to help suppliers better understand audit results and drive continuous improvement. For all published 2025 audits, an automated OASIS Insights Report will be available in the **OASIS Supplier File Library**.

OASIS Insights marks the first of several planned **Digital Innovation enhancements** from the IAQG. To support these initiatives, the IAQG is implementing a **Digital Innovation Fee of \$250 USD**. This fee will be applied to all initial, recertification, and surveillance audits that begin **on or after May 15th, 2025**.

Please note: **This fee is imposed by the IAQG, not Perry Johnson Registrars (PJR).**

For more information about OASIS Insights and the IAQG's Digital Innovation efforts, please visit: <https://iaqg.org/tools/insights>

If you have any questions, feel free to contact us directly.

Sincerely,

Kim Wagner
