

Client Spotlight: SchureMed

Innovating Surgical Solutions with Unwavering Quality

Perry Johnson Registrars, Inc. (PJR) is proud to spotlight one of our valued clients, SchureMed, a leader in the medical device manufacturing industry. Based in Abington, Massachusetts, SchureMed has set a high standard with their commitment to quality, safety, and innovation, offering advanced surgical table accessories and patient positioning systems to medical facilities across the globe.

SchureMed specializes in crafting high-quality surgical table accessory devices designed to optimize surgical procedures. From advanced patient positioning systems to custom-made surgical tools, their solutions cater to the ever-evolving needs of healthcare professionals. Their products enhance precision, safety, and efficiency, empowering surgeons and medical teams to deliver the highest standard of patient care.

For SchureMed, achieving ISO 13485 certification has been a game changer. As a manufacturer of medical devices, maintaining high standards is critical, and this certification serves as a testament to their dedication to excellence. It has allowed them to establish trust with distributors worldwide, offering reassurance that their products consistently meet rigorous industry requirements.

“The certification has opened doors for us to collaborate with global distributors who recognize and trust the stringent standards set by ISO 13485,” notes SchureMed's leadership.

ISO certification has not only validated SchureMed's commitment to quality but has also positioned them as a benchmark in the medical device industry. It reinforces their adherence to the highest standards, ensuring that each product they deliver aligns with the expectations of healthcare professionals around the world. SchureMed views their ISO certification not just as a credential but as a key driver of their continuous improvement and innovation.

SchureMed has valued their long-standing partnership with PJR, highlighting the support and collaboration received throughout their certification journey. *“Our experience with PJR has been marked by transparency and strong support,”* they shared. The seamless process ensured that SchureMed's certification and compliance efforts were managed effectively, allowing the company to focus on what they do best: developing innovative solutions for the medical industry.

What truly sets SchureMed apart is their innovative approach. Through a bespoke design program, they collaborate closely with healthcare professionals to create custom tools tailored to the specific needs of operating rooms. This dedication to innovation ensures that their products are not only effective but also accessible, even in under served regions. Their focus on cost-effective and space-saving solutions provides significant value to their clients, making SchureMed a trusted partner in the medical field.

Client Spotlight: SchureMed

Innovating Surgical Solutions with Unwavering Quality

SchureMed's vision for the future is clear: they aim to become the most trusted leader in surgical positioning innovation worldwide. By leveraging their ISO certification, SchureMed is poised to enter new markets and expand their global reach. With a commitment to advancing the standard of care for patients and medical professionals, they continue to invest in their product development and quality assurance processes, ensuring that they remain at the forefront of the industry.

At the core of SchureMed's success is their unwavering philosophy: every surgical procedure should be conducted with precision, comfort, and efficiency. This guiding principle has driven their efforts to design, test, and manufacture solutions that enhance the surgical experience for both medical professionals and patients. By maintaining a steadfast commitment to quality and safety, SchureMed empowers surgeons to achieve the best possible outcomes, ultimately improving patient care on a global scale.

PJR is honored to support SchureMed in their journey, and we look forward to witnessing their continued growth and success as they revolutionize the world of surgical care.
