

Perry Johnson Registrar's **QUALITY POLICY STATEMENT**

Through a strategy of continuous improvement and teamwork, and in accordance with the requirements set forth by the international standards organizations, Perry Johnson Registrars, Inc. is dedicated to differentiating itself as an effective provider of certification services, as well as ensuring that we create value for our customers, industry stakeholders, and employees.

The foundation for achieving our objective is based upon our commitment to provide our clients with the highest level of service to assist with their success in the global marketplace.

PJR understands the importance of impartiality in carrying out its management system certification activities, manages conflict of interest, and ensures the objectivity of its management certification activities. PJR further supports a policy of public access and disclosure of information regarding its certification processes and status of certified organizations, and is responsive to complaints about its activities and the activities of its certified clients.

The entire PJR team adheres to the spirit of this quality policy as well as the directives of the Quality Manual and its subordinate documents.

THE WORLDWIDE NAME FOR QUALITY

ISO 27001

A Standard for Information Security Management Systems

*Your partner in
ISO 27001 certification
for Medical Organizations*

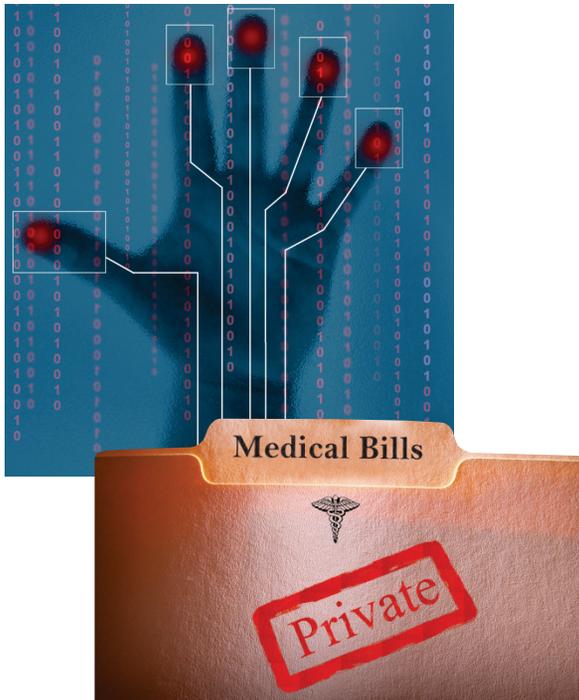

**PERRY JOHNSON
REGISTRARS, INC.**

ISO 27001 For Medical Organizations

ISO 27001 is the only globally accepted standard for Information Security Management Systems (ISMS), and presents management guidelines to help keep digital and paper information safe. ISO 27001 provides organizations with a framework to address data security based on evaluation of risks that their cyber assets may be exposed to.

ISO 27001, published in September 2013, incorporates key elements of the ISO 9001 and ISO 14001 standards, both being popular quality management standards. Medical organizations of any size can use ISO 27001 to identify and alleviate risks and guard confidential medical records that hackers can use to falsely bill hospitals and patients for procedures or expensive medical equipment.

Who Needs ISO 27001 Certification?

ISO 27001 extends to any organization that holds sensitive information. In particular, companies in the healthcare field can be susceptible to cyber attacks, due to archaic software that contains copious amounts of confidential information.

Benefits to ISO 27001 Certification

While an ISO 27001 certification is not mandated, it is expected to be at some point in the near future. There are some clear benefits, including:

- Competitive Advantage – Security-conscious patients will take notice of an ISO 27001 certification.
- Enhanced Credibility – With ISO 27001 certification, patients, suppliers, and other stakeholders can have confidence that sensitive information is protected and secure.

PJR, Your Certification Partner

PJR knows certification. For nearly two decades, we have provided certification services across many standards and across the globe. Here in the US, PJR was the #1 reporting Certification Body in North America in 2015.

While our range of certification services is diverse and our global research is wide, we're proud of our client-centered customer service.

- Our dedicated Project Managers welcome the opportunity to answer all of your questions as they provide you with a customized certification service plan and pricing – all free of charge.
- Once you select us as your certification partner, we continue to make the experience easier for you by providing a single point of contact for scheduling and any customer service concerns throughout the certification process.
- We offer our client-base free seminars, webinars, in-person training, and informational newsletters on a variety of topics.
