SQF Code Revision

The publication of edition 6 of the GFSI Guidance Documented presented SQFI with a challenge, and an opportunity to review the SQF 2000 and SQF 1000 Codes and revise as necessary before resubmission

SQF Code Revision – Objectives

- Ensure the SQF Codes meets the requirements of the GFSI Guidance Document edition 6
- Remove duplication and repetition in the SQF Codes
- Clarify areas of concern or ambiguity in the SQF Codes

Creating One SQF Code

The SQF Program

Key Changes in Edition 7

- Overall objective was to streamline, clarify and meet the GFSI benchmarking criteria
- Combined 1000 and 2000 codes to develop one SQF Code aligned with the GFSI Guidance Document and Industry Scopes
- Glossary and food sector categories included in Code
- Re-numbering of code to align with GFSI industry scopes (Section 4 is now Module 2)
- Identified 20 System Elements (module 2) as mandatory
- Removed the scoring of OIPs and adjusted scoring methodology and rating
- Added requirement for SQF contact in case of recalls
- Produce module (module 7) includes elements of the Harmonization Standard
- Added elements on Continuous Improvement, Environmental Monitoring, Compressed Air Quality
- New database system through EtQ Reliance
- Code and Database will be implemented on July 1, 2012
